

Life Skills Training

Fidelity Instrument

The following instrument is designed to provide information about how you are implementing Life Skills Training. This information will be used as part of the Life Skills Training evaluation for both program improvement (e.g., to modify lessons that are not well received or add to lessons that may be lacking in content) and to provide a context for interpreting the pre-posttest survey results.

Please complete this form after every program session. It is important that you complete the instrument as soon after each lesson as possible. Completing the instrument immediately after each lesson will help ensure that information about the lesson is still fresh in your mind.

Thank you very much for taking the time to provide this important information.
